Subject: Abu Dhabi Terminals launches new e-services in ADT web portal

Ref:
KPCT/2015/CIR/16

Dear Valued Customers,

From:
Abu Dhabi Terminals

Abu Dhabi Terminals is pleased to announce launch of following new e-services in ADT web portal.

To:
All Shipping Lines,
Agents, Traders,
Transporters and Port
Users

Container Yard Inventory:

Container Yard Inventory e-service enables shipping lines/agents to download various yard inventory related reports. This service will help shipping lines/agents to manage their container inventory effectively.

Live Vessel Update:

Live Vessel Update allows shipping lines/agents to monitor the status of their alongside vessels. This includes crane sequence, balance moves, operations commence etc.

Container Appointment Validation:

Container Appointment Validation tool is incorporated within the Truck Visit Appointment (TVA) e-service. It allows customers to enquire whether the container is available for creating appointments. Customers will also be able to check the DO validity date, booking status, customs hold, terminals hold etc. on the container prior to creating the TVA.

Note: Customer should continue to use their existing ADT web portal username and password to login and access e-services. The privilege access may vary from user to user.

For any further details, [click here](#) to download the user guides of e-services, or feel free to contact as follows.
